OUR COMPANY

Elbow Grease is one of the oldest independent massage cream companies in the world. Offering a new, odorless, thick massage cream that met multiple challenges, it quickly gained—and has retained—a top-choice position in the hearts, minds and fantasies of people around the world.

Formulated by B. Cumming Company, Elbow Grease Original Cream was created by players for players who had first-hand, intimate knowledge of their craft. In those days, we literally went door to door, sharing samples armed only with a Damron's guide, a street map and our superior product.

Today, we deliver a comprehensive line of products around the globe to satisfy the needs of discriminating men and women who demand the best massage cream that money can buy.

WE NOW OFFER:

- Elbow Grease Creams
- H2O, water-based gels
- Registered FDA medical devices - H2O Personal Lubricant & Fusion Deep Action
- Encounter water-based and silicone gels
- Fusion Original Bodyglide Silicone
- Black Beauty Latex Cleaner

NEW CREAM FORMULA

As a company, it is very difficult and unnerving when a new formulation must be introduced; however, every so often we must adjust our formulas to meet new guidelines and regulatory mandates issued by either State or Federal authorities/agencies.

This is one of those times, and we are extremely excited and proud to announce that all our Elbow Grease Cream formulas are now PARABEN FREE!

Our chemist and laboratory worked very hard to remove all parabens and replaced them with a natural ingredient. After extensive research and testing, our R & D team was able to identify the key ingredient needed to replace all parabens. Elbow Grease Cream now features CRAMBE ABYSSINICA SEED OIL.

CRAMBE ABYSSINICA SEED OIL is a natural occurring substance which provides many benefits including:

A truly unique molecular structure that is not found in any other naturally occurring substance.

It is very resistant to oxidation, unlike many plant oils, as it contains a high percentage of C22 fatty acids.

This oil is easily absorbed and does not leave a sticky or greasy feeling behind.

Abyssinian Oil contains an abundance of both Linoleic and Linolenic Acids. Linoleic Acid, an Omega 6 fatty acid, is helpful with skin regeneration, while Linolenic Acid, an Omega 3, is anti-inflammatory, cell-communicating, and skin conditioning.

CREAMS

ORIGINAL FORMULA

This is the all American cream that started it all in 1979. Mineral Oil based, our original cream cream has changed the lives of men and women around the world. The Creams are excellent for Solo Stimulation, Mutual Masturbation, and many other KINK activities that the user can think of: Put some ELBOW GREASE into your Kinky thoughts.

LIGHT FORMULA

A thinner but equally creamy version of our original formula for those that prefer it. Unscented, this mineral oil based formula minimizes friction and dramatically increases glide.

CREAMS

COOL FORMULA

For those who want a cool soothing experience. Our COOL and HOT cream provide an extra level of stimulation when a small amount is placed in erogenous areas of the body. The level of this sensation depends on the user and the part of the body to which it is applied. Both are excellent for nipple stimulation, scrotum stimulation, etc.

**ELBOW GREASE CREAM
COOL FORMULA
1 OZ. QUICKIE**
